

KOFAB's Doughveyor is a positive drive dough lifting system. Features such as a single drive system and automatic infeed section are unique to the Doughveyor design.

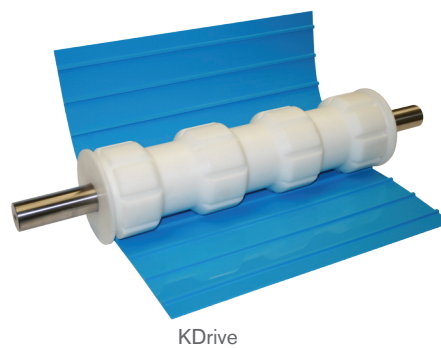

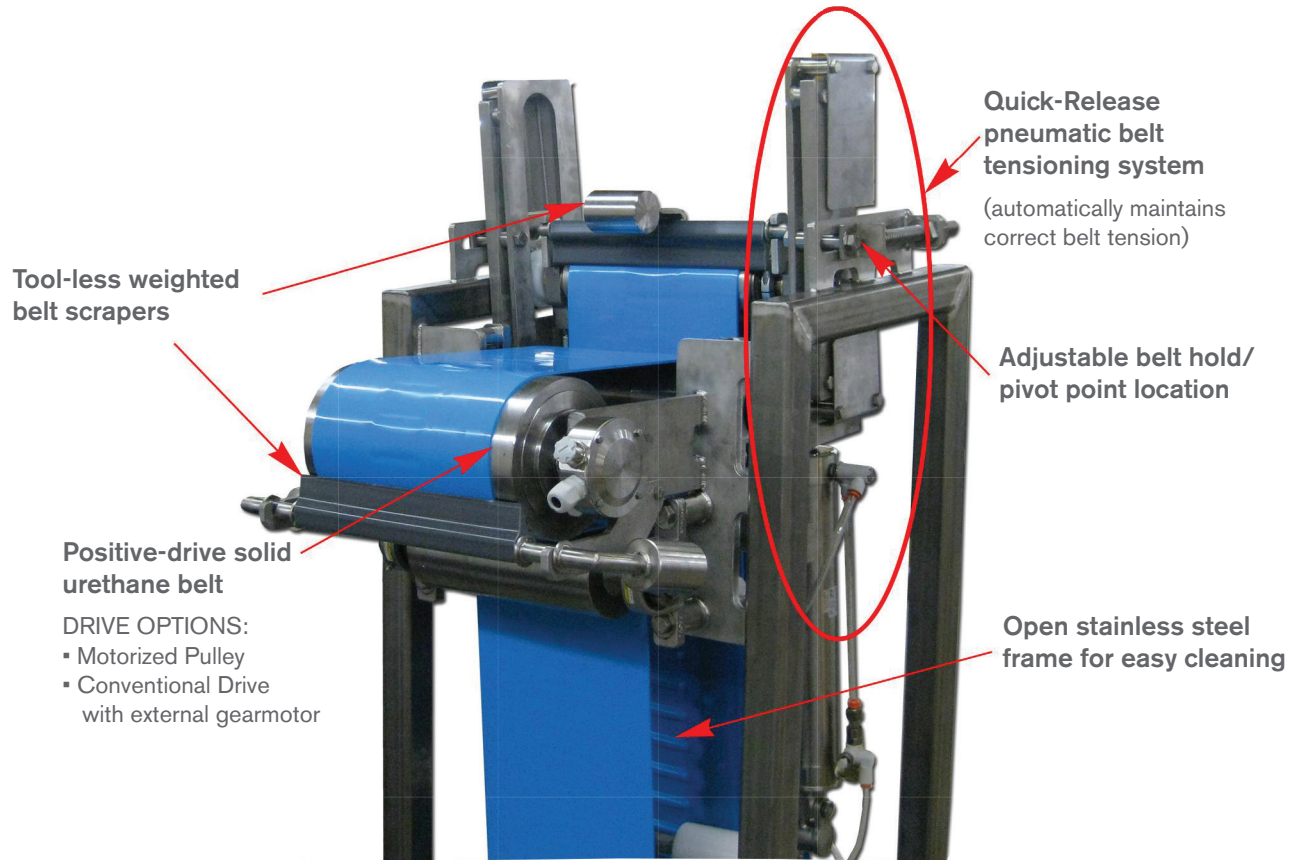

The pneumatic belt tensioning system insures that the belt is always at optimal tension, never over tensioned. This also acts as a quick-release feature that allows for easy belt removal, enabling the system to be quick and easily cleaned.

The Doughveyor can be customized to fit specific customer applications.

DESIGN FEATURES

- POSITIVE DRIVE SYSTEM
- SELF-TRACKING BELT
- QUICK-RELEASE TAKE-UPS
- SANITARY DESIGN
- LONG LASTING
- LOW-MAINTENANCE
- QUIET OPERATION
- VARIOUS DESIGN OPTIONS

Optional patented K-V Drive and KDrive technology available
Compatible with any positive or conventional drive belting
